## Fumigation Service & Supply, Inc.

### FSS is Expanding Coverage in the Iowa Region

FSS is proud to announce the expansion of our coverage area and offer our signature DynamicIPM™, Fumigation and Decontamination Services, and Product Support to Western Iowa, Missouri and Nebraska. FSS has a unique skill set and a reputation for delivering results with Safety, Quality, and Integrity.

Introducing [Fumigation Service & Supply, Inc.'s](#) newest Area Manager, Sam Weighner.

Sam grew up in Northeastern Iowa and moved to eastern Colorado while he was still in school. Sam is a Greeley Colorado High School graduate and attended the University of Wyoming, where he studied Geology. He has worked as a third-party food safety consultant, writing programs and helping food processing plants to reach compliance with GFSI benchmarked audits. From there, he moved back to Iowa in the Des Moines area helping design and install water mitigation and concrete repair in both residential and commercial settings.

When he's not working, Sam enjoys the outdoors, hunting, and spending time with Lindsay, his wife, and their son, Daniel.

We are very excited to have Sam be a part of our FSS family and extend our coverage area to exceed the expectations for quality service.

You can reach Sam directly by emailing [s.weighner@fumigationzone.com](mailto:s.weighner@fumigationzone.com).
